

MCNULTY WATER PEOPLE'S UTILITY DISTRICT

WATER LINE EXTENSION POLICY

November 5, 2013

1. The party proposing an extension of any water line for future services shall contact the District's manager to schedule a preliminary meeting with both the manager and District's engineer to review the District's general conditions and approval procedure for water line extensions.
2. The following will be submitted for review and approval by the District Board at one of their monthly meetings (first Tuesday of each month):
  - a. Copy of proposed plans prepared by a Professional Engineer.
  - b. Approval document from Columbia County Land Development Services for the proposed development.
  - c. Copy of easement or right-of-way approval for the location of the pipe line.
  - d. A minimum fee of \$750.00 submitted to the District for inspections and assistance on the entire project and the required water testing.
3. After approval, the following action is required:
  - a. Prepare final plans for review and approval by the District's engineer.
  - b. Schedule a meeting with the District's manager and/or engineer to review the proposed start time and schedule for the construction. Construction cannot proceed without the District's final approval and the contractor providing at least 48 hours notice for start up.
  - c. For any start up delays, the District's office will be notified immediately.
